

# SRI VASAVI ENGINEERING COLLEGE (AUTONOMOUS)

PEDATADEPALLI, TADEPALLIGUDEM-534 101, W.G.Dist.

## Department of Computer Science & Technology

### Guest Lectures organized during the Academic Year: 2024-25

| S.No. | Date       | Event Name                                                                                          | Name of the Eminent Guest                                                                                                                                                             | Audience              | No. of Students participated |
|-------|------------|-----------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|------------------------------|
| 1.    | 29/10/2024 | Webinar on "Kick Start with Cyber Security"                                                         | Umakanth Tripathi- Director Cyber Security,LTIMindtree                                                                                                                                | III SEM B.Tech CST    | 65                           |
| 2.    | 28/10/2024 | Guest Lecture on "Fundamentals of AI & Machine Learning Application to Natural Language Processing" | Dr. L N Sastry Varanasi, Adhoc Faculty, NIT AP                                                                                                                                        | III,V and VII SEM CST | 11                           |
| 3.    | 22/10/2024 | webinar on "Process Mining and Career Opportunities                                                 | Poornima Dhall - Lead Partner Manager, Academic Alliance - Celonis, Rishi Puri - Lead Business Consultant, Tech Mahendra and Kiran Lakhwani - Lead Business Consultant, Tech Mahendra | VII SEM CST           | 60                           |
| 4.    | 12/09/2024 | Guest Lecture on "AI & Data Science Project Life Cycle"                                             | Mr. Arunjit Chowdhury, CEO, Enterprise Building Training Solutions, Hyderabad                                                                                                         | V SEM B.Tech CST      | 68                           |

**Vision:** To evolve as a centre of academic and research excellence in the area of Computer Science and Technology.  
**Mission:** To utilize innovative learning methods for academic improvement.  
To encourage higher studies and research to meet the futuristic requirements of Computer Science and Technology.  
To inculcate Ethics and Human values for developing students with good character.
