D.N.V Lakshmi Sravani(12-511)

M.Sushma(12-530)

Tech Mahindra

Tech Mahindra Limited is an Indian multinational provider of information technology (IT), networking technology solutions and Business Process Outsourcing (BPO) to the telecommunications industry. It is a specialist in digital transformation, consulting and business re-engineering solutions. Anand Mahindra is the founder of Tech Mahindra which is headquartered at Pune, India.

Part of the Mahindra Group, Tech Mahindra is a USD 3.68 billion company with 105,000+ professionals across 51 countries. It provides services to 788 global customers including Fortune 500 companies. It is also one of the Fab 50 companies in Asia, a list compiled by Forbes. Tech Mahindra was ranked #5 in India's software services (IT) firms and overall #111 in Fortune India 500 list for 2012. Tech Mahindra, on 25 June 2013, announced the completion of a merger with Mahindra Satyam. Tech Mahindra has operations in more than 51 countries with 40 sales offices and 72 delivery centres. Assessed at SEI CMMi Level 5, its software headcount stood at 72,952, BPO at 22,693 and support at 7,636 at the end of the financial year 2015.

Mahindra Group V-C Anand Mahindra

Revenue:\$3.68 billion

Net income:\$675 million

Number of employees:105,235

Structured Query

Structured Query Language is a special-purpose programming language designed for managing data held in a relational database management system (RDBMS), or for stream processing in a relational data stream management system (RDSMS).

Originally based upon relational algebra and tuple relational calculus, SQL consists of a data definition language, data manipulation language, and a data control language. The scope of SQL includes data insert, query, update and delete, schema creation and modification, and data access control. Although SQL is often described as, and to a great extent is, a declarative language (4GL), it also includes procedural elements.

SQL was one of the first commercial languages for Edgar F. Codd's relational model, as described in his influential 1970 paper, "A Relational Model of Data for Large Shared Data Banks." Despite not entirely adhering to the relational model as described by Codd, it became the most widely used database language.

3D PASSWORD

The long history of 3D technology can be drawn the way back to the start of photography. A new invention by David Brewster in 1844, Stereoscope could take 3D photographic images. At the Great Exhibition in 1851, a picture of Queen Victoria taken by Louis Jules , using the improved technology became very well known throughout the world.

The 3D password presents a virtual environment containing various virtual objects.

The user walks through the environment and interacts with the objects.

The 3D password is simply the combination and sequence of user interactions that occur in the 3D environment.

In 3D password user have to First Authenticate with simple textual password(I.e. user need to provide user name & password) Once authentication successful then user moves in 3D virtual environment, Thereafter a computer with keyboard will be seen on screen. On that screen user have to enter password (textual).which is stored in a simple text file in the form of encrypted co-ordinates(x_1, y_1, z_1). After successfully completion of this authentication, Then user automatically enter into an art gallery, where he/she has to select multiple point in that gallery or he can do some action in that environment like switching button on/off or perform action associated with any object like opening door, etC. The sequence in which user has clicked (i.e. selecting objects) that sequence of points are stored in text file in the encrypted form. In this way the password is set for that particular user.

In 3D password user have to First Authenticate with simple textual password(I.e. user need to provide user name & password) Once authentication successful then user moves in 3D virtual environment, Thereafter a computer with keyboard will be seen on screen. On that screen user have to enter password (textual).which is stored in a simple text file in the form of encrypted co-ordinates(x1, y1, z1). After successfully completion of this authentication, Then user automatically enter into an art gallery, where he/she has to select multiple point in that gallery or he can do some action in that environment like switching button on/off or perform action associated with any object like opening door, etc. The sequence in which user has clicked (i.e. selecting objects) that sequence of points are stored in text file in the encrypted form. In this way the password is set for that particular

Skype is an application that specializes in providing video chat and voice calls. Users can also exchange text and video messages, files and images, as well as create conference calls. Skype is available on Microsoft Windows, Mac, or Linux, as well as Android, Blackberry, iOS, and Windows Phone smartphones and tablets. Skype is based on a freemium model. Much of the service is free, but users require Skype Credit or a subscription to call landline or mobile numbers. As of February 2012, there were 34 million concurrently online on Skype;[at the end of 2010, there were over 660 million worldwide users, with over 300 million estimated active each month as of August 2015.

Skype allows users to communicate by voice using a microphone, video by using a webcam, and instant messaging over the Internet. Skype-to-Skype calls to other users are free of charge, while calls to landline telephones and mobile phones (over traditional telephone networks) are charged via a debit-based user account system called Skype Credit. However, some network administrators have banned Skype on corporate, government, home, and education networks, citing reasons such as inappropriate usage of resources, excessive bandwidth usage, and security concerns.

Guest Lectures/Invited Talks for the Students

Title of Guest Lecture	Name of Resource Person, Organization Name	Date	Target Audience	No of students attended/participated
Interactive Session on Industry Requirements	Mr Srikanth Surampudi HR Regional, TCS, Hyderabad	5 th Mar 2014	3 rd B.Tech CSE	40
Quality Engineering	Dr Sriram Kothapalli, Vice President and Global Head(Quality), ITC Infotech Ltd, Bangalore	10 Mar 2014	1 st , 2 nd , 3 rd , 4 th B.Tech CSE	540
Big Data: Frontier for Innovation	Mr Srinivas Kishan Anapu,CEO, Voice of Big Data Solutions, Hyderabad	17 Mar 2014	4 th B.Tech CSE	120

Computer Society of India (CSI) Activities

Title of Event	List of Competitions Conducted	Date	Target Audience	No of students attended/participated
CSI-Fest 2k14 (In-house Inter Department Fest of CSE,IT ,MCA)	1. Paper Presentations 2. Poster Presentation 3. Debugging 4. Technical Quiz 5. Essay Writing 6. Vocab Hunt 7. Building blocks 8. Painting 9. Cross words 10. Movie Making	8 th February 2014	2 nd , 3 rd , 4 th B.Tech CSE and M.Tech CSE 1 st Sem	161

Student Achievement & Participation in Various Technical Events

Prize Winners

SNo	Name of the student	Prize Details	Venue	Date
1	K.Swamy Kamina	First Prize in Paper Presentation	VALIANT, Sri Vishnu Institute of Technology, Bhimavaram	6 th -7 th Feb 2014
2	B.Padmaja	Third Prize in Paper Presentation	Gitam University, Vizag	6 th -8 th Mar 2014
3	M.Usha Sai			
4	C.Kanthi			

SNo	Name of the student	Event Participated	Venue	Date
1	K.Lakshmi Narayana	Android Workshop	GMR Institute of Technology, Rajam	Feb 7 th &8 th ,2014
2	S.N.V.Siva Kumar	Paper Presentation	V R Siddartha College of engineering, Vijayawada	Feb 14 th &15 th ,2014
3	K.Chandra Mouli	Paper Presentation	V R Siddartha College of engineering,Vijayawada	Feb 14 th &15 th ,2014
4	K.Lakshmi Narayana	Paper Presentation	V R Siddartha College of Engineering, Vijayawada	Feb 14 th &15 th ,2014
4	K.A.eswar Durga Prasad kumar	Paper Presentation	V R Siddartha College of Engineering, Vijayawada	Feb 14 th & 15 th ,2014
5	L.Renuka	Paper Presentation	V R Siddartha College of Engineering, Vijayawada	Feb 14 th & 15 th ,2014

6	M.Sowmya	Paper Presentation	V R Siddartha College of Engineering, Vijayawada	Feb 14 th & 15 th ,2014
7	E.Srilakshmi	Paper Presentation	V R Siddartha College of Engineering, Vijayawada	Feb 14 th & 15 th ,2014
8	Baby Shanmini	Paper Presentation	V R Siddartha College of Engineering, Vijayawada	Feb 14 th & 15 th ,2014
9	v.Sai Priya Darshini	Paper Presentation	V R Siddartha College of Engineering, Vijayawada	Feb 14 th & 15 th ,2014
10	M.Hemalatha	Ethical hacking Expert	K L University,Guntur	Feb 20 th & 21 st ,2014
11	A.Maneesha	Ethical hacking Expert	K L University,Guntur	Feb 20 th & 21 st ,2014
12	V.Sai Priya Darshini	Ethical hacking Expert	K L University,Guntur	Feb 20 th & 21 st ,2014
13	K.Vamsi Krishna Kanth	Ethical hacking Expert	K L University,Guntur	Feb 20 th & 21 st ,2014
14	MD.Mohiddin	Ethical hacking Expert	K L University,Guntur	Feb 20 th & 21 st ,2014
15	M.Sandeep	Ethical hacking Expert	K L University,Guntur	Feb 20 th & 21 st ,2014
16	Ch. Sravanthi U	Bug Bounty Workshop	Gitam University,Vizag	Mar 6,7,8 2014
17	Usha Rani Konda	Bug Bounty Workshop	Gitam University,Vizag	Mar 6,7,8 2014
