Apple Inc

Apple is the world's largest information technology company by revenue,[7] the world's largest technology company by total assets, and the world's third-largest mobile phone manufacturer. On November 25, 2014, in addition to being the largest publicly traded corporation in the world by market capitalization, Apple became the first U.S. company to be valued at over US\$700 billion.[8] The company employs 115,000 permanent full-time employees as of July 2015[4] and maintains 453 retail stores in sixteen countries as of March 2015;[1] it operates the online Apple Store and iTunes Store, the latter of which is the world's largest music retailer.

Apple's worldwide annual revenue totaled \$233 billion for the fiscal year ending in September 2015.[3] The company enjoys a high level of brand loyalty and, according to the 2014 edition of the Interbrand Best Global Brands report, is the world's most valuable brand with a valuation of \$118.9 billion.[9] By the end of 2014, the corporation continued to receive significant criticism regarding the labor practices of its contractors and its environmental and business practices, including the origins of source materials.

Revenue:US\$ 233.715 billion

Net income: US\$ 53.394 billion

Total assets: US\$ 290.479 billion

Total equity:Increase US\$ 119.355 billion

D MOHITH SAI(14A81A05D5)

Speed coding

Speedcoding or Speedcode was the first high order or high-level language created for an IBM computer. The language was developed by John Backus in 1953 for the IBM 701 to support computation with floating point numbers. Here high level means symbolic and aiming for natural language expressivity as a goal as opposed to machine or hardware instruction oriented coding. The idea arose from the difficulty of programming the IBM SSEC machine when Backus was hired to calculate astronomical positions in early 1950. The speedcoding system was an interpreter and focused on ease of use at the expense of system resources.

It provided pseudo-instructions for common mathematical functions: logarithms, exponentiation, and trigonometric operations. The resident software analyzed pseudo-instructions one by one and called the appropriate subroutine. Speedcoding was also the first implementation of decimal input/output operations

One such source of variation that attracted my curiosity was dependability: how well does the language performs across a variety of tasks, such as those composing the benchmark suite? A language might be concise most of the time, but if once a month a quirk of the language forces the code to be five times as large as what it ought to be, it's a problem

Although it substantially reduced the effort of writing many jobs, the running time of a program that was written with the help of Speedcoding was usually ten to twenty times that of machine code. The interpreter took 310 memory words, about 30% of the memory available on a 701.

RASPBERRY PI

The Raspberry Pi is a series of credit card-sized single-board computers developed in the United Kingdom by the Raspberry Pi Foundation with the intention of promoting the teaching of basic computer science in schools and developing countries. The original Raspberry Pi and Raspberry Pi 2 are manufactured in several board configurations through licensed manufacturing agreements with Newark element14 (Premier Farnell), RS Components and Egoman. These companies sell the Raspberry Pi online.[8] Egoman produces a version for distribution solely in Taiwan, which can be distinguished from other Pis by their red colouring and lack of FCC/CE marks. The hardware is the same across all manufacturers. The original Raspberry Pi is based on the Broadcom BCM2835 system on a chip (SoC), which includes an ARM1176JZF-S 700 MHz processor, VideoCore IV GPU,[9] and was originally shipped with 256 megabytes of RAM, later upgraded (models B and B+) to 512 MB. The system has Secure Digital (SD) (models A and B) or MicroSD (models A+ and B+) sockets for boot media and persistent storage.

GOOGLE NOW

*Google Now is an intelligent personal assistant developed by Google. Google Now is available within the Google Search mobile application for Android and iOS, as well as the Google Chrome web browser on personal computers. Google Now uses a natural language user interface to answer questions, make recommendations, and perform actions by delegating requests to a set of web services. Along with answering user-initiated queries, Google Now proactively delivers to users information that it predicts (based on their search habits) they may want. It was first included in Android 4.1 ("Jelly Bean"), which launched on July 9, 2012, and was first supported on the Galaxy Nexus smartphone. The service was made available for iOS on April 29, 2013 without most of its features. Google Now was released for Google Chrome on March 24, 2014. Popular Science named Google Now the 'Innovation of the Year' for 2012. Google Now mainly competes against assistants such as Apple's Siri and Microsoft's Cortana.

Guest Lectures/Invited Talks for the Students

Title of Guest Lecture	Name of Resource Person, Organization Name	Date	Target Audience	No of students attended/ participated
Webinar Series on "Introduction to C-Language"	Mr Kalyan Reddy, Globarena Technologies Pvt.Ltd.	26-12-2014 to 28-12-2014	2 nd B.Tech CSE	60

Computer Society of India (CSI) Activities

Name of Event	Speakers Institutes	Date of Event	No of Students Participated
Guest Lecture on "Spirituality in Computer Era"	Dr. Garikapati Narasimha Rao, Maha Sahasraavadhani Hyderabad	11-10-14	200

Details Of Workshops Organized

S.NO	DATE	Event Name	Event Summary
1.	08-10-2014 To 09-10-2014	2-day JKC Training on "Cloud Computing	Cloud Computing Concepts covered by JKC Team, Hyderabad

Details of Special Training Sessions Organized

S.No	Student Enrichment Course	Organization Name	Date & Duration	Target Audience
1	Oracle WDP Java 7 Phase-2	Oracle India Pvt. Ltd.	09/10/14 to 14/10/14 (20 Hours Training)	4 th CSE : 82 Students

Student Internships

S.No	Name of the Faculty	Funding Organization	Project Name
1	Dr Y S S R Murthy	Srinivasa Irrinki, CEO & Founder ItsHealthyWay LLC.,US	Health Portal ItsHealthyWay.com
2	Mr V Venkateswara Rao		
3	Mr Y M R Chaitanya		

Oracle WDP

College entered a MOU with Oracle Workforce Development(WDP) Program for training students on Oracle Technologies which was inaugurated on 05-11-2014. Details are as follows:

S.No	Name of Resource Person	Date of Visit	Purpose
1.	Mr.Thomas Solomon, Director – Education Solution Architech – Enterprise Key Accounts, Oracle India Pvt. Ltd.	05-11-2014	Oracle WDP Inauguration
2.	Mr. Prakash Tiwari, Territory Head , Oracle India Pvt. Ltd.		

List of Students selected in Various Companies

S.No	Roll No	Name of the Student	Company
1	10A81A0527	Kavali Tejaswi	Infosys
2	10A81A05A2	Sangula Hema	
3	10A81A05B8	Divya Vuppala	
4	10A81A05A6	Sravya Sree Akundi	Infosys & CMC Ltd.
5	10A81A0556	Sindhu Velli	42 Hertz Software India Pvt.Ltd. & Tech Mahindra
6	10A81A0536	Musulla Ram Kumar	Voice of Big Data
7	10A81A0547	Puppala Bhanumathi	
8	10A81A0543	Pasumarthi Dharmendra	Voice of Big Data & Open Text Corporation India Pvt.Ltd & Accenture
9	10A81A05A3	Sankuratri Hymavathi	Tech Mahindra

S.No	Roll No	Name of the Student	Company
10	10A81A0558	Vankayala Renuka Anusha	L & T Info Tech & Syntel & HCL
11	10A81A0508	Ch.Vimala Kumari	Genpact
12	11A85A0504	P.Jaya Prakash	Indian Navy
13	10A81A0546	G.Prudhvi Raj	Clover Infotech
14	11A85A0502	A.L.S.Rama Krishna	DN Softsol Pvt Ltd
15	10A81A0562	A.Ajay Kiran	Sutherland Off campus pool
16	10A81A0530	K.Srilatha	Imokshum
17	10A81A0511	E.Ramya Sree	Imokshum
18	10A81A05A4	Sheik Sultan	Dell Computers
19	10A81A05A5	S.Harika	Sandisk
20	10A81A0594	N.V.R.Pavan Kumar	Robert Bosch Microsoft People Tech Oozo Technologies
21	10A81A0547	P.Bhanumathi	Zeta Interactive & Voice of Big Data
22	11A85A0514	S.Srinivas	Glaze Trading India Pvt Ltd
23	10A81A0597	P. Sai Saranya	HCL

Sahaya Activities

Various Activities were done by the Sahaya (Helping Hands) of CSE Students and Faculty

- > Staff donated 1-day Salary towards Hudhud Cyclone Relief Fund.
- >Staff donated 1-day Salary towards AP Capital Development Fund

Student Activities

S.No	Date	Service Activity Details	Venue
1	24/11/2014	Donated an amount of Rs. 1500/- to Mr Lakshmi Vara Prasad a 28 year old press reporter suffering with Brain TB towards medical treatment	SVEC TPG
